

# Remote Control

# Ready? Push!

- Even if it doesn't get easier, you'll become better. Ever had to get up to do every little thing, and at last forgotten to turn off the light? Smart products nowadays enable us to do the unlikely with comfort.
- TIS Smart Home manufacturer introduces:  
**TIS Remote Control**, a product of style attachment to technology. This nicely curved remote control has 34 buttons to control lights, curtain, AC, music player, radio, etc.

*Remote Control*

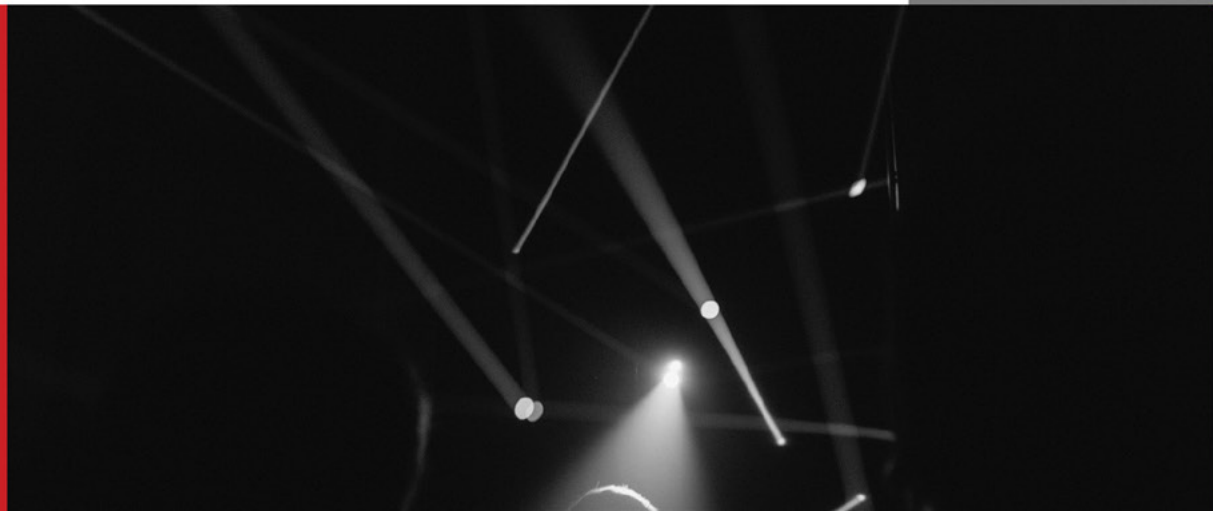

**12 special buttons** are designed to manage  
(both individual and grouped) lights.  
You can also use 3 buttons to set  
your favorite mood.

● If you have come home from work and you are too tired to move, it is fine, just relax on the sofa; TIS Remote Control is with you. Grab it and perform anything you like. How about opening your favorite radio station to hear the latest news

You can also close the curtains to have a more tranquil atmosphere while setting the AC on its medium speed and turning off one or two lights to take a short nap on your comfortable sofa.

This device is equipped with Arm and Panic buttons. In emergency situations you can make use of these two buttons to operate security system. If feeling in danger, you can do multiple things simultaneously.

So do not freak out. Pushing these two buttons, a call for help will go to the nearest police station, one of your relatives, and a trusted neighbor. Alarm will be open, too. Just program whatever you find necessary.

This hand-held controller which is available in black and grey enables you manage all your smart devices with one hand.

Comfort and  
safety is  
what we  
attempt to  
deliver with  
TIS Remote Control,  
because we  
believe you  
are worth it.
